

13 章

◆ 13-1

1.

```
package ex13_01;

public class Card {
    String suit;
    int    number;
}
```

◆ 13-2

1.

```
package ex13_01;

public class Exec {
    public static void main(String[] args) {
        Card card = new Card();
    }
}
```

◆ 13-3

1.

```
package ex13_01;

public class Exec {
    public static void main(String[] args) {
        Card card = new Card();
        card.suit = "スペード";
        card.number = 1;
    }
}
```

◆ 13-4

1.

```
package ex13_01;
public class Card {
    String suit;
    int number;
    public void disp(){
        System.out.println("種類=" + suit);
        System.out.println("番号=" + number);
    }
}
```

2.

```
package ex13_01;
public class Exec {
    public static void main(String[] args) {
        Card card = new Card();
        card.suit = "スペード";
        card.number = 1;
        card.disp();
    }
}
```
